1. Preamble

These PGGM Investments Global Voting Guidelines 2019 hierarchically fall under our Responsible Investment Implementation Framework, which primarily addresses environmental, social and corporate governance (ESG) issues in our listed equities investments and activities. These guidelines are generally applicable for meetings of all companies that are part of the funds and/or segregated accounts managed by PGGM Investments on behalf of its clients. In all cases where examples are provided in these Global Voting Guidelines these are used for exemplary purposes only and should not be considered limitative.
2. Basic Voting Principles

i. Voting objectives

Our voting decisions must contribute to our clients’ fiduciary duty and are based on our clients’ interests as universal investor and (long term institutional) shareholder, the impact of these resolutions on the long term value creation, the company’s business continuity, license to operate and the impact to the Environment, Social and Governance (hereinafter: ‘ESG’) performance of the company as a result of these resolutions. The PGGM Investments Global Voting Guidelines 2019 provide practical guidance on PFZW’s policy framework for voting activities.

ii. Taking position

When voting we favor clear and decisive voting decisions. For this reason we prefer voting either FOR or AGAINST a resolution on the agenda and see voting ABSTAIN or WITHHOLD as an exception.

iii. Minimum Corporate Governance Standards

We vote AGAINST all resolutions that fail to meet Minimum Corporate Governance Standards.

iv. Minimum Environmental and/or Social Principles

We vote AGAINST all resolutions that fail to meet Minimum Environmental and/or Social Principles.

v. Available information/substantiation

We vote AGAINST all resolutions if information is not provided timely and/or insufficient and/or inadequate information is available to make adequate voting decisions in line with these Basic Voting Principles in an informed manner, including - but not limited to - a clear substantiation and/or motivation of the resolution.

---

1 Both in financial and non-financial terms, such as minimalizing and/or lower risks (such as reputational risk, environmental risk, social risks such as strikes, etcetera).

2 PGGM Investments endorses internationally recognized and/or accepted basic principles of good corporate governance and proper checks and balances. It refers to the six basic ‘Principles of Corporate Governance’ by the OECD and the ‘Statement on Global Corporate Governance Principles: Revised’ by the ICGN. Being a Dutch asset manager with generally only Dutch clients and/or beneficiaries, our views on specific corporate governance issues are, next to the OECD- and ICGN principles, also guided by Dutch law, rules and regulations, the Dutch corporate governance code, and the recommendations of Eumedion (the Dutch representative of the interests of institutional investors in the field of corporate governance) (hereinafter referred to as our ‘Dutch Descent’). Accountability, transparency and shareholder rights are key corporate governance issues to PGGM Investments. Locally different views on corporate governance standards and/or local corporate governance codes and/or best practices may be taken into account.

3 PGGM Investments takes into account internationally recognized and/or accepted basic principles on environmental and/or social issues, such as the UN Global Compact and the Organisation for Economic Development and Co-operation (OECD) guidelines for multinational enterprises.
vi. **Case-by-case**

Where these PGGM Investments Global Voting Guidelines 2019 do not provide for an informed voting position, the resolutions will be voted on a case-by-case basis - in line with these Basic Voting Principles.

vii. **Conflicts or alignment with Basic Voting Principles**

In all cases PGGM may decide to vote AGAINST any proposal if the resolution and/or its consequence are/is deemed to be conflicting with our Basic Voting Principles. PGGM may also decide to vote FOR any proposal that endorses our Basic Voting Principles.

viii. **Principle based**

These PGGM Investments Global Voting Guidelines 2019 are principle based⁴. We strive that our voting decisions materially live up to these principles and therefore allow ourselves to deviate from a strict interpretation of our voting guidelines should our voting objectives dictate us to do so in specific circumstances. Based on these Basic Voting Principles, the following chapters address some of the most common agenda items and our general default voting position.

---

⁴ It is the spirit and not the letter of a guideline which is important.
3. Operational Items

i. **Financial results/Director and auditor reports**
   Vote FOR approval of financial statements and director and auditor reports, unless:
   - The financial statements have not been approved by the auditor;
   - There are concerns about the accounts presented or audit procedures used; or
   - The company is not responsive to shareholder questions about specific items that should be publicly disclosed.

ii. **Appointment of auditors and auditor fees**
   Vote FOR the appointment or re-election of auditors and proposals authorizing the board to fix auditor fees, unless:
   - There are serious concerns about the accounts presented or the audit procedures used;
   - The auditors are changed without explanation;
   - Non-audit-related fees are substantial and/or are routinely in excess of standard annual audit-related fees;
   - They have previously served the company in an executive capacity and/or can otherwise be considered affiliated with the company; or
   - Serious concerns exist about the integrity and/or reliability of the auditors and/or their firm.

iii. **Appointment of internal statutory auditors**
   Vote FOR the appointment or re-election of statutory auditors, unless:
   - There are serious concerns about the statutory reports presented or the audit procedures used;
   - Questions exist concerning any of the statutory auditors being appointed; or
   - The auditors have previously served the company in an executive capacity and/or can otherwise be considered affiliated with the company.

iv. **Allocation of income**
   Vote FOR approval of the allocation of income, unless:
   - The dividend pay out ratio conflicts with any existing allocation policy and/or has been consistently below 30 percent without adequate explanation; or
   - The pay out is excessive (i) given the company's financial position and/or (ii) against the background of the company’s share buy back program.
v. Share dividend alternative

Vote FOR share (scrip) dividend proposals, unless:
- The proposal does not allow for a cash option, unless management demonstrates that the cash option is harmful to shareholder value.

vi. Amendments to articles of association

Vote amendments to the articles of association on a case-by-case basis, whereby generally:

Vote FOR if the amendments generally provide for an increase of shareholder rights, incorporate and/or improve the compliance with Minimum Corporate Governance Standards, unless:
- A specific amendment is considered to be exceptionally negative for shareholder rights.

Vote AGAINST if the amendments generally provide for a decrease of shareholder rights, relinquish and/or worsen the compliance with Minimum Corporate Governance Standards, unless:
- A specific amendment is considered to be exceptionally positive for shareholder rights.

vii. Voting Standards

Vote AGAINST article amendments concerning the introduction of plurality voting standard(s); and Vote FOR article amendments leading to the abolishment of plurality voting standard(s).

Vote FOR shareholder proposals requesting the introduction of a majority voting standard.

viii. Change in company fiscal term

Vote AGAINST resolutions to change a company’s fiscal term, unless:
- The fiscal year is changed to the calendar year.

Lower disclosure threshold for share ownership

Vote AGAINST resolutions to lower the share ownership disclosure threshold below five percent, unless:
- Specific reasons exist to implement a lower threshold\(^5\).

Amend quorum requirements

Vote proposals to amend quorum requirements for shareholder meetings on a case-by-case basis, whereby generally:

Vote FOR if the amendments generally provide for an increase of shareholder rights, incorporate and/or improve the compliance with Minimum Corporate Governance Standards, unless:

\(^5\) Such as legal obligations.
- A specific amendment is considered to be exceptionally negative for shareholder rights.

Vote AGAINST the amendments that generally provide for a decrease of shareholder rights, relinquish and/or worsen the compliance with Minimum Corporate Governance Standards, unless:

- A specific amendment is considered to be exceptionally positive for shareholder rights.

Transact other business

Vote AGAINST other business when it appears as a voting item.
4. Board of directors

Please see the international classification of executive and non-executive directors on page 12.

One and two-tier governance structure
Companies in The Netherlands traditionally work with a dualistic governance model (i.e. a two-tier governance structure). In companies with a two-tier governance structure, management and supervision are divided between two company bodies: the management board and the supervisory board. Companies with a one-tier governance structure have a single management board comprised of executive and non-executive directors. In this situation, the latter supervise the former, and there is no supervisory board. Non-executive directors and executive directors have joint management responsibility. It is important that independent supervision by non-executive directors is sufficiently ensured. The composition and functioning of a management board comprised of both executive and non-executive directors must be such that the supervision by non-executive directors is properly carried out, and independent supervision can be assured.

Best Practices
PGGM requires board nominees and directors to adhere to market best-practice standards at all times. PGGM will therefore oppose the election of board nominees if they did not adhere to market best practice standards on issues not specifically addressed in the policy.

PGGM expects boards to be diverse in the broadest sense: board should be composed of diverse individuals in terms of gender, age, cultural background, tenure, skills, education, experience, expertise and personal qualities that are appropriate to the company’s current and long-term business needs. As much as possible, we would like to see a similar diverse composition on the board as within the rest of the organisation. As a minimum requirement for balanced gender representation on boards we welcome – for both one-tier and two-tier boards – that at least 30% of the seats be held by women and at least 30% by men. (Dutch statutory target, extended to December 2019, regulates that companies that fail to have at least 30% of women and at least 30% of men on their management and supervisory boards must outline reasons in their (public) annual reports)

PGGM encourages companies to disclose the gender, age, cultural background, tenure, skills, education, experience, expertise and personal qualities of the board in a board matrix.

Director’s responsibilities and duties are increasingly complex, demanding and time-consuming. PGGM believes that directors must be able to devote the time and energy necessary to responsibly fulfill their commitment to the company and effectively represent shareholders’ interests. Generally, PGGM believes that directors should not hold more than five mandates at listed companies. A non-executive directorship counts as one mandate, a non-executive chairmanship (or lead independent director/senior independent director) counts as two mandates, and a position as executive director (or a comparable role) is counted as three mandates. Also, we consider any person who holds the position of executive director (or a comparable role) at one company and a non-executive chairman (or lead independent director/senior independent director) at a different company to be overboarded.
Voting items

i. Director elections (executive and/or non-executive)

General – all elections

Vote FOR directors (in case of bundled elections, individual elections, shareholder nominees or employee and labor representatives), unless:

- There are clear concerns over the total composition of the board and/or expertise of directors:
- One of the proposed candidates is considered to be a non-independent director (executive or non-executive) and is becoming a member of a board that comprises less than 50% independent directors after being elected;
- One of the proposed candidates is considered to be a non-independent director (executive or non-executive) and is becoming a member of the audit committee after being elected;
- One of the proposed candidates is an executive director and is becoming a member of an audit, nomination and/or remuneration committee;
- The proposed candidate is considered to be a non-independent director and is becoming a Chairman of one of the board committees after being elected;
- The company failed to establish any board committees.
- The level of attendance falls below 75% of the meetings during the preceding year and no plausible explanation is provided (in countries where this information is disclosed).
- One of the proposed candidates will serve both as Chairman and CEO.
- For Continental Europe and UK:
  - The proposed candidate holds more than five mandates at listed companies. A non-executive directorship counts as one mandate, a non-executive chairmanship counts as two mandates, and a position as executive director (or a comparable role) is counted as three mandates.
  - The proposed candidate holds the position of executive director (or a comparable role) at one company and a non-executive chair at a different company.
- For US: the proposed candidate sits on more than five listed company boards, or is an executive director (or a comparable role) of a listed company who sits on the boards of more than two listed companies besides their own – withhold only at their outside boards.
- PGM will vote against Chair of the Nominating and/or Governance Committee if the board only consists of non-executive directors of the same gender.
- There are clear concerns over questionable finances or restatements;
- There have been questionable transactions with conflicts of interest;
- There are any records of abuses against (minority) shareholder interests; or
- There are specific concerns about the individual, such as criminal wrongdoing or breach of fiduciary responsibilities;
**Bundled elections**

In case of bundled elections, vote FOR management nominees\(^6\) in the election of directors, unless:

- There is a vote FOR one of the shareholder nominee/shareholder nominees;
- There is a vote FOR one of the employee and/or labor representatives;

If one (or more) of the elements above is applicable, PGGM Investments will vote against the entire slate of directors.

**Individual elections**

In case of individual elections, vote FOR individual management nominees unless:

- There is a vote FOR the shareholder nominee/shareholder nominees;
- There is a vote FOR the employee and/or labor representatives;
- There is a shareholder nominee on the ballot.

**Employee and labor representatives**

Vote FOR employee and/or labor representatives if they sit on either the audit or compensation committee and are required by law to be on those committees, unless:

Vote AGAINST employee and/or labor representatives if they sit on either the audit or compensation committee, if they are not required to be on those committees, unless:

- There are clear benefits and/or advantages in the composition of the board and/or expertise of director;
- They demonstrate a clear ability to contribute positively to board deliberations.

In markets where companies are obliged by law to have a minimum number of employee and/or labor representatives on the board, such as Germany and France, employee and/or labor representatives should not be taken into account in determining the level of independence of the board as whole. In these cases the level of independence of the other board members combined should be at least 50%.

---

**Classification of Directors**

As opposed to supervisory board members in two-tier boards, non-executive directors in one-tier boards have a closer involvement with the company’s management on topics such as strategy and performance. For simplification reasons we generally treat these two systems in the same way and treat managing directors as executive directors and supervisory board members as non-executive directors (‘NED’), unless this is for specific legal reasons.

With regard to director classification, PGGM Investments applies the following criteria:

**Non-independent Director**

- Employee or executive of the company;
- Any director who is classified as a non-executive, but receives salary, fees, bonus, and/or other benefits that are in line with the highest-paid executives of the company;
- Any director who is attested by the board to be non-independent;
- Any director who has been on the board for over 12 years;
- Any director specifically designated as a representative of a significant shareholder of the company;

---

\(^6\) Nominees proposed by and/or proposals made by the (management) board of the company.
Any director who is also an employee or executive of a significant shareholder of the company;

Beneficial owner (direct or indirect) of at least 10% of the company’s shares, either in economic terms or in voting rights (this may be aggregated if voting power is distributed among more than one member of a defined group, e.g., family members who beneficially own less than 10% individually, but collectively own more than 10%), unless market best practice dictates a lower ownership and/or disclosure threshold (and in other special market-specific circumstances);

Government representative;

Any director who has had an important business relationship with the company, or a company associated with it, in the year prior to the appointment. This includes the case where the board member, or the firm of which he is a shareholder, partner, associate or adviser, has acted as adviser to the company (consultant, external auditor, civil notary and lawyer) and the case where the board member is a management board member or an employee of any bank with which the company has a lasting and/or significant relationship;

Any director who receives personal financial compensation from the company, or a liaised company, other than the compensation received for the work received as a board member;

Represents customer, supplier, creditor, banker, or other entity with which company maintains transactional/commercial relationship (unless company discloses information to apply a materiality test);

Any director who has conflicting or cross-directorships with executive directors or the chairman of the company;

Relative of a current employee of the company or its affiliates;

Relative of a former executive of the company or its affiliates;

A new appointee elected other than by a formal process through the General Meeting (such as a contractual appointment by a substantial shareholder);

Founder/co-founder/member of founding family but not currently an employee;

Former executive with less than 5 year cooling off period

No material connection, either directly or indirectly, to the company other than a board seat.

Employee Representative

Represents employees or employee shareholders of the company (classified as ‘employee representative’ and is considered a non-independent NED). Their non-independence is however not taken into account when determining the independence of the board as a whole for the purpose of director elections.

Discharge of board and management

Vote FOR discharge of the board and management, unless:

- A (valid) discharge of directors from liabilities disproportionably hinders legal claims against directors;
- There are serious questions about actions of the board and/or management for the year in question; or
- Legal action is being undertaken against the board and/or management by other shareholders, which we deem relevant and/or material.

Vote AGAINST proposals to remove approval of discharge of board and management from the agenda.

---

7 For purposes of ISS’ director independence classification, ‘material’ will be defined as a standard of relationship (financial, personal or otherwise) that a reasonable person might conclude could potentially influence one’s objectivity in the boardroom in a manner that would have a meaningful impact on an individual’s ability to satisfy requisite fiduciary standards on behalf of shareholders.

8 ‘Relative’ follows the Dutch corporate governance code definition of spouse, registered partner or other life companion, foster child or relative by blood or marriage up to the second degree.
**Director, officer, and auditor indemnification and liability provisions**
Vote proposals seeking indemnification and liability protection for directors and/or officers on a case-by-case basis, whereby we are generally reluctant to vote in favor of proposals that seek for indemnification and liability protection for directors and/or officers, whether it is in the articles of association (bylaws), management and/or employment agreement and/or otherwise.

Vote AGAINST proposals to indemnify auditors.

**Board Structure**
Vote FOR proposals to fix board size, unless
- The number of board members is lower than three (<3) for the management and/or supervisory board (two-tier) or lower than five (<5) for a one-tier board.
- The number of board members is larger than fifteen (>15)

Vote AGAINST the introduction of classified boards and mandatory retirement ages for directors.

Vote AGAINST proposals to alter board structure or size in the context of a fight for control of the company and/or its board.

Vote AGAINST proposals to have or result to having more executive directors than non-executive directors on the board.

Vote AGAINST proposals to combine the position of Chief Executive Officer (CEO) and Chairman of the board into one person.

Vote FOR proposals to split the position of Chief Executive Officer (CEO) and Chairman of the board over two persons.
5. Remuneration

Best Practices

PGGM believes that fixed salaries are payment for achieving what is expected. In principle, fixed salaries are a fair exchange for executing the job in a reasonable and responsible manner.

Remuneration is paid for the creation of long-term financial absolute returns and sustainable value and remuneration policies incorporate a broad stakeholder perspective.

Intrinsic non-financial motivators are important and should be given significant weighting in the overall rewards system.

PGGM strongly encourages companies to include sustainability criteria with concrete targets into their remuneration plans. These criteria should be challenging and meaningful in relation to the company’s business.

PGGM believes that employees and management are only granted variable remuneration in circumstances in which they meet or exceed challenging financial return and sustainable long-term value targets.

PGGM encourages companies to adopt an approach in which variable remuneration can only take the form of restricted ordinary listed shares of the company and/or cash, with a preference for restricted ordinary shares.

Upon grant date, variable remuneration is limited to a reasonable multiple of fixed remuneration per individual per annum.

PGGM believes that variable incentive grants should be in ordinary listed shares only and vest over time in five equal annual instalments and should be retained for a minimum period of 5 years. All vested variables must be held through to a minimum of 1 year after departing from the company, provided the vested variable incentives are retained for a minimum period of 5 years.

PGGM encourages companies to bring executive compensation in line with the culture of the company and to disclose the ratio between CEO and median or average employee pay.

PGGM believes that remuneration plans must be subject to clawback mechanisms that can be used to recover (i) remuneration that was awarded based on incorrect (financial) information or has created undesirable outcomes depending on circumstances and/or (ii) decisions that have had, in retrospect, negative impacts on society and/or the environment.

PGGM is of the opinion that non-executive directors in a one-tier board and supervisory board members in a two-tier board should be awarded a fixed amount in cash fees only and that reflect their individual experience and qualifications whilst also based on the expected time commitment.

The remuneration of non-executive directors in a one-tier board or supervisory board members in a two-tier board should promote an adequate performance of their role and should not be dependent on the results of the company. Additional fees for taking further responsibilities such as senior independent director, deputy chairman, committee chairs may be warranted. Meeting attendance fees or special one-off awards should be discouraged.
Vote proposals that bundle compensation for both non-executive directors/supervisory board members and executive directors into a single resolution on a case-by-case basis, whereby we are generally reluctant to vote in favor since we generally oppose to the bundling of resolutions on the agenda when shareholders --like in these cases-- should be able to vote on these resolutions in an unbundled manner.

**Voting items**

**Executive Director Remuneration**

Vote FOR proposals to award cash and/or ordinary listed shares to executive directors, unless:

- The executive remuneration and/or remuneration policy/structure does not endorse two objectives: (i) Remuneration is paid for the creation of long-term financial absolute returns and sustainable value and (ii) remuneration policies incorporate a broad stakeholder perspective;
- The level and composition of executive remuneration is not consistent with the company's general remuneration policy/structure;
- The remuneration of an executive is not structured
  - (i) in a transparent, clear and comprehensible manner
  - (ii) in such a way as to strike a balance between fixed and variable components of remuneration, and within the variable components, between the achievement of short-term and long-term objectives and between pecuniary and non-pecuniary components, whereby
  - (iii) the required proportions depend on market conditions and the concrete circumstances in which the company operates and/or
  - (iv) the remuneration structure does not focus to a considerable extent on achieving the company's long-term objectives and strategies, meaning, under normal circumstances, when the long-term bonus does not constitute a greater part of the total remuneration than the annual (short-term) bonus;
- The remuneration plans allow for any variable pay that is non performance based (e.g. time based, or one-off awards outside of the normal incentive plan, such as retention awards or other discretionary compensation);
- The remuneration plans allow for vesting of unvested variable remuneration in case an executive director decides to leave voluntarily;
- The remuneration plans are not subject to clawback mechanisms that can be used to recover remuneration that was awarded based on incorrect information;
- The remuneration plans allow for awards other than ordinary listed shares and/or cash, such as share options.
- The granting of the variable components of the remuneration is
  - (i) not made mainly dependent on the realization of a limited number of clearly quantifiable and challenging objectives communicated in advance and/or
  - (ii) the objectives have not been published, unless this is contrary to an overriding interest of the company;
- The vesting period of the variable remuneration is less than 3 years;
- The non-executives/remuneration committee does not at all times have the discretionary power to adjust the level and/or outcome of the variable remuneration components to be granted in order to achieve a reasonable remuneration; or
- The amounts are excessive relative to other companies in the country and/or industry.
Non-Executive Director Remuneration for one-tier boards
Vote FOR compensation proposals for non-executive directors that are members of a one-tier board, unless:
- It contains any components other than a fixed amount of cash and/or a pre-determined fixed value of restricted ordinary listed shares.
- The non-executive remuneration and/or remuneration policy/structure does not endorse three objectives. (i) Remuneration is paid for the creation of long-term financial absolute returns and sustainable value and (ii) remuneration policies incorporate a broad stakeholder perspective, and (iii) to prevent non-executives from focusing on the short term;
- There is no obligation to hold the awarded pre-determined fixed value of restricted ordinary listed shares for a minimum of 1 year after departing from the company; or
- The amounts at the moment of the total award are excessive relative to other companies in the country and/or industry.

Supervisory Board Member Remuneration for two-tier boards
Vote FOR compensation proposals for non-executive directors that are members of a two-tier board that only include cash fees, unless:
- The non-executive remuneration and/or remuneration policy/structure does not endorse three objectives: (i) to enable the cost-efficient recruitment and retention of qualified and competent non-executives, (ii) to stimulate non-executives to create stakeholder value in the long term, and (iii) to prevent non-executives from financial gain by focusing on the short term; or
- The amounts are excessive relative to other companies in the country and/or industry.

Vote AGAINST proposals to introduce any other benefits, such as option based components and/or retirement benefits for non-executive directors and supervisory board members.
6. Capital structure

i. Share issuance requests

General issuances:
Vote AGAINST proposals to authorize the board to issue ordinary shares\(^9\) with or without priority/preferential rights, unless:

- The maximum of all authorisations does not exceed ten percent (10\%) of the currently issued capital in normal circumstances and/or does not exceed an additional ten percent (10\%) of the currently issued capital in cases of share-based mergers and/or acquisitions and the authorization does not exceed a period of 18 months.

Vote FOR proposals to authorize the board to issue shares with pre-emptive rights to a maximum of fifty percent (50\%) over currently issued capital, unless:

- The authorization exceeds a period of 18 months.

Vote FOR proposals to authorize the board to issue shares without pre-emptive rights to a maximum of ten percent (10\%) of currently issued capital with a maximum of an additional ten percent (10\%) of currently issued capital for specific situation such as mergers and acquisitions, unless:

- The authorization exceeds a period of 18 months.

Specific issuances:
Vote on a case-by-case basis on all requests to issue shares, with or without pre-emptive rights.

ii. Increases in authorized capital

Vote FOR non-specific proposals to increase authorized capital up to hundred percent (100\%) over the current authorization unless the increase would leave the company with less than thirty percent (30\%) of its new authorization outstanding, unless:

- The authorization exceeds a period of 18 months.

Vote FOR specific proposals to increase authorized capital to any amount, unless:

- The increase would leave the company with less than thirty 30 percent (30\%) of its new authorization outstanding after adjusting for all proposed issuances; or
- The authorization exceeds a period of 18 months.

Vote AGAINST proposals to adopt unlimited capital authorizations.

---

\(^9\) And any other instruments such as convertible shares and/or other derivatives.
iii. **Reduction of capital**
Vote FOR proposals to reduce capital for routine accounting purposes if the terms are favorable to shareholders, unless:

- The authorization exceeds a period of 18 months.

Vote proposals to reduce capital in connection with corporate restructuring on a case-by-case basis.

iv. **Capital structures**
Vote FOR resolutions that seek to maintain or convert to a one-share, one-vote capital structure.

Vote AGAINST requests for the creation or continuation of dual-class capital structures and/or the creation of new and/or additional supervoting shares.

v. **Preferred shares**
Vote FOR the creation of a new class of preferred shares and/or for issuances of preferred shares up to 50 percent of issued capital unless the terms of the preferred shares would adversely affect the rights of existing shareholders.

Vote FOR the creation/issuance of convertible preferred shares as long as the maximum number of ordinary shares that could be issued upon conversion meets PGGM Investments’ guidelines on equity issuance requests.

Vote AGAINST the creation of a new class of preference shares that would carry superior voting rights to the ordinary shares.

Vote AGAINST the creation of blank check preferred shares.

Vote AGAINST the creation of blank check preferred authorizations.

vi. **Debt issuance requests**
Vote non-convertible debt issuance requests with or without pre-emptive rights on a case-by-case basis.

Vote FOR the creation/issuance of convertible debt instruments as long as the maximum number of ordinary shares that could be issued upon conversion meets PGGM Investments’ guidelines on equity issuance requests.

Vote FOR proposals to restructure existing debt arrangements, unless:

- The terms of the restructuring would adversely affect the rights of shareholders.
vii. Pledging of assets for debt
Vote proposals to approve the pledging of assets for debt on a case-by-case basis.

viii. Increase in borrowing powers
Vote proposals to approve increases in a company’s borrowing powers on a case-by-case basis.

ix. Share repurchase plans
Vote FOR share repurchase plans, unless:

- The resolution does not provide for a maximum repurchase prize or the maximum prize is more than 10 percent above the share price 0 to 5 days prior to the repurchase date. If deviation timeframe is not given PGGM will support repurchase plans as long as the maximum prize is more than 10 percent above the share price;
- The plan provides for more than 10% of the issued share capital being repurchased;
- The proposed timeframe for the plan is longer than 18 months;
- There is clear evidence of past abuse of the authority;
- The plan contains no safeguards against selective buybacks; or
- The company does not have any limitations in place with regard to the maximum percentage of issued share capital held in treasury or if this limit is higher than 10%.

x. Reissuance of shares repurchased
Vote FOR requests to reissue any repurchased shares, unless:

- The repurchasing of shares is not in accordance with the share repurchase plan on the basis whereof the shares are being repurchased; or
- There is clear evidence of abuse of this authority in the past.

xi. Capitalization of reserves for bonus issues/Increase in par value
Vote AGAINST requests to capitalize reserves for bonus issues of shares and/or to increase par value, unless:

- The board has no existing issuance or repurchase authorization in place to cover the incurred costs.
7. Other items

i. Reorganizations/Restructurings
Vote reorganizations and/or restructurings on a case-by-case basis, taking into account amongst others -- the social aspects of reorganizations and/or restructurings.

ii. Mergers and acquisitions (M&A)
Vote case-by-case on mergers and acquisitions taking into account the following:

For every M&A analysis, we review publicly available information as of the date of the report and evaluate the merits and drawbacks of the proposed transaction, balancing various and sometimes countervailing factors including -- but not limited to and in a random order--:

- Valuation - Is the value to be received by the target shareholders (or paid by the acquirer) reasonable?

While the fairness opinion may provide an initial starting point for assessing valuation reasonableness, we place emphasis on the offer premium, market reaction, and strategic rationale.

- Strategic rationale - Does the deal make sense strategically?

From where is the value derived? Cost and revenue synergies should not be overly aggressive or optimistic, but reasonably achievable. Management should also have a favorable track record of successful integration of historical acquisitions.

- Governance - Will the combined company have a better or worse governance profile than the current governance profiles of the respective parties to the transaction?

If the governance profile is to change for the worse, the burden is on the company to prove that other issues (such as valuation) outweigh any deterioration in governance; and

- Social and environmental issues.
- Conflicts of interest - Are insiders benefiting (disproportionately and inappropriately) from the transaction as compared to non-insider shareholders?

We will also consider whether any special interests may have influenced these directors and officers to support or recommend the merger.

iii. Mandatory takeover bid waivers
Vote proposals to waive mandatory takeover bid.

iv. Reincorporation proposals
Vote reincorporation proposals on a case-by-case basis.
v. **Expansion of business activities**
Vote resolutions to expand business activities unless on a case-by-case basis.

vi. **Related-party transactions**
Vote related-party transactions on a case-by-case basis.

vii. **Antitakeover mechanisms**
Vote AGAINST all antitakeover proposals, unless: They are structured in such a way that they give shareholders the ultimate decision on any proposal and/or offer and provided that they are limited in time.
8. Shareholder proposals
Vote FOR all shareholder proposals, unless:

- The shareholder proposal has insufficient relevance to the company; or
- The shareholder proposal is not in accordance with the PGGM Global Voting Guidelines 2019; or
- The board managed to successfully invalidate the relevance to the company and/or otherwise successfully demonstrate that shareholders should not vote FOR the shareholder proposal.
